Indeed with the individual musical bells ringing individual musical notes, you eventually get to know the bell as a tangible object that makes one specific sound. You get everything in the Starter Pack with your name printed on a special "Thank You" page in the book, plus a copy of the book that started it all, Color Me Mozart Series One. I have worked with 23 autistic children all ages, all levels on keyboard and piano skills.

They use auditory memory, kinesthetic touch with colored text to write the notes. I am really excited that it's finally ready to go, and now I need your help to bring the book and the custom xylophone to life! Half the battle of initially playing the piano is figuring out which note is. Israel Tanenbaum Israel Tanenbaum 11 1 1 bronze badge.

Our Teachers. To do this, you would want to progress away from color-coded notation to children with autism can be very powerful. However, as the students were able to easily tell the different notes apart, perhaps by using different colors that are not assigned to a note, the experimental students would have been able to read not only the colored notation better but also the uncolored notation.
