The functions of the high chair must be unimpaired when it is subjected to static and dynamic mechanical stress during reasonable foreseeable use of the high chair. Date expired
TheRAPEXsystemisdesignedtoensureefficientdisseminationofinformati
If the seat can be removed from the frame, the fastening devices to anchor the seat to the frame must be designed so as to prevent the seat from being inadvertently detached from the frame. They must not have any impermeable sheeting that could cover both the mouth and the nose of the child and thus constitute suffocation hazards.
